Business & Data Analyst | SQL, Python, Tableau, Excel | Data Quality, Financial Analysis & Research

EDUCATION

- Johns Hopkins Carey Business School (JHU)** Washington, DC
Master of Science in Business Analytics and Artificial Intelligence (STEM) | \$30,000 scholarship Jul 2026
• Relevant Coursework: Data Analytics, Advanced Database Management, Financial Decisions & Investment Analysis
- University of Wisconsin–Madison (UW-Madison)** Madison, WI
Bachelor of Arts in Economics Dec 2024
• GPA: 3.696/4.0; Dean’s List: 7 semesters; Coursework: Economic Statistics, Introductory Accounting

PROFESSIONAL EXPERIENCE

- World Salon (Expert panels on technology, business, policy & markets)** New York, NY
Research Intern Feb 2025 – May 2025
• Automated weekly collection of 200+ executive profiles in Python for a database used to shortlist and invite speakers
• Researched cross-industry topics (ESG, tariffs, healthcare, digital transformation) and wrote guest profiles, briefing notes, and run-of-show materials for 20+ business forums (1–2 a week)
- JLL (Jones Lang LaSalle)** Shanghai, China
Analyst Intern, Valuation & Risk Advisory Jun 2024 – Jul 2024
• Reconciled 8–10 daily system outputs into cash-flow inputs for NPV/IRR valuations of multi-million-dollar properties
• Compiled asset-level data on 30+ warehouse properties from JLL’s database, official sources, and market calls, cross-checking every figure before it entered the valuation template
• Created a data dictionary and color-coded QA tracker that the QA team adopted and kept using on later projects
• Reviewed three years of financial statements from 40 real estate companies to verify their external auditors (EY, Deloitte, KPMG, PwC) for benchmarking analysis
- Shanghai Pacific Securities Co., Ltd** Shanghai, China
Macroeconomic Research Intern Jun 2023 – Aug 2023
• Designed an Excel dashboard of China’s monthly trade data by product and partner, with heat-mapped YoY tables and six charts for weekly macro reports read by several hundred subscribers
• Built time-series and correlation analyses of silver prices on 10 datasets since 1990; wrote a price-driver report with a 2023 outlook that the macro team built on

PROJECT EXPERIENCE

- Olist Marketplace Data Quality & Decision-Ready Analytics System | Independent Project** May 2026 – Jun 2026
• Built a reproducible pipeline for a 9-table marketplace dataset (99K+ orders), fixing join-grain, geolocation-duplication, and customer-identity issues with SQL validation checks and a data dictionary
• Found that a naive raw join would overstate product revenue by ~4.5% and cash collected by ~26.9%; built an executive Tableau dashboard on corrected GMV (R\$13.59M)
- QUODD Corporate Action Adjustment Integrity Framework | Analytics Consulting Project** Mar 2026 – May 2026
Project Coordinator / Integration Lead | Top-5 Finalist
• Integrated three anomaly-detection modules’ outputs across 18,923 securities into a “filter, diagnose, prioritize” framework that narrowed review to 1,078 high-priority securities (5.7%)
• Drove the timeline and client communication and opened the final client presentation with our recommendation
- Inventory Anomaly & Restocking Agent | Generative AI Project** Apr 2026 – May 2026
• Led a 24-case evaluation of the verifier-checked LangGraph/ReAct restocking agent across 12 categories, incl. prompt-injection and excessive-agency red-team tests (21 passed end-to-end)
• Wrote the project proposal and split tasks across a six-person team; built the demo and integrated the final report

SKILLS & ADDITIONAL INFORMATION

Technical: SQL, Python (pandas, scikit-learn), R, Tableau, Excel (modeling, dashboards, pivot tables), PowerPoint
Analytics: Statistical Analysis, Regression, Time-Series Analysis, Data Validation, KPI Definition, Data Visualization
Finance & Research: Financial Modeling, NPV/IRR Valuation, Financial Statements, Market Research
Applied AI: Generative AI, Agentic AI Evaluation (LangGraph, ReAct), Red-Team & Prompt-Injection Testing
Communication: Research Writing, Data Storytelling, Executive Reporting, Stakeholder Communication
Languages: English (fluent), Mandarin Chinese (native)
Leadership: Head, UW-Madison Chinese Radio Station; led 5 events, raised \$1K in funding, recruited 18 members
